Capitoline Triad Exclusive TOSTEM Partners in India

- Founded in 2019, Capitoline Triad specializes in high-end aluminium window and door systems, delivering precision-engineered solutions across NCR and North India, with over 100 successfully executed projects.
- In strategic collaboration with TOSTEM Japan, the company brings globally benchmarked, factory-finished systems to the Indian market.
- Capitoline Triad is led by Mr. Chandrashes C. Ghoash, an industry professional with over 15 years of experience in the building materials and fenestration segment. Having worked with renowned brands like Kohler and Fenesta, he brings deep expertise in sales, product positioning, and premium customer solutions, driving the company's vision of delivering world-class systems in India.

Pre Engineered Window System

- Engineered with Japanese precision, our aluminium window systems are designed to deliver superior performance, durability, and aesthetics.
- Manufactured to exacting TOSTEM standards, each system ensures seamless operation, structural strength, and long-term reliability.
- With advanced sealing technology and high-quality finishes, our windows enhance thermal efficiency, reduce noise, and elevate modern living spaces.

Japanese Technology

- **Craftsmanship** : TOSTEM represents the pinnacle of Japanese craftsmanship, blending centuries-old dedication with cutting-edge innovation.
- **Manufacturing**: Advanced processes ensure precision tolerances measured in microns, ensuring products perform flawlessly for generations.

Why TOSTEM with Capitoline Triad?

06

- Our pre-engineered “Window in a Box” system ensures that every product is factory-finished, eliminating inconsistencies of on-site fabrication and ensuring superior precision and performance.
- From consultation and measurement to installation, our team ensures a smooth, end-to-end execution tailored to your project requirements.

From Design to Installation

07

- While our systems are pre-engineered for precision, they are carefully tailored to suit your architectural requirements.
- From site measurement and design consultation to final installation, our team ensures a smooth, efficient, and hassle-free experience.
- With trained professionals and a detail-oriented approach, we deliver consistent quality at every stage of execution.
